

ROMAN BLIND SYSTEMS

AVANTI SYSTEM	4.0
CONTEMPORARY SYSTEM	4.1
EASYRISE SYSTEM	4.2
TRADITIONAL SYSTEM	4.3
MOTORISED SYSTEM	4.4

Vertilux *Roman Blind Systems* are timeless regulators of both light and privacy. With their lavish, draped folds, they are ideal for more ornate, heritage interiors but can also be used to create a feature within a simpler setting.

Tasteful and easy to operate, Vertilux Roman Blinds are also an effective and cost efficient alternative in providing insulation against varying temperatures, as well as sound, and include a fabric covered headrail, producing a clean, stylish finish. Our high-tech bonding process creates a crisp side hem.

Our Roman Blind Systems come in a choice of mechanisms. Which system is right for you depends on the desired aesthetics, size and the placement of the blind. so depending on your aesthetic aspirations, the size and placement of the blind will determine which system is right for you.

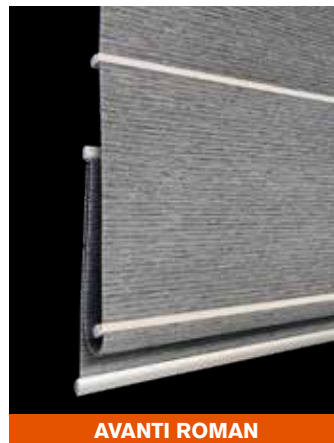

You will find no pin holes or unsightly puckering that you get with conventional Roman Blinds that are stitched. Additionally, each blind is individually designed to ensure that every folding segment is symmetrical and evenly sized.

Not only do Roman Blinds offer you great control of your privacy, they can equally provide flexible light control. A Sheer Roman Blinds can provide glare reduction and protection from harmful UV, whilst a total blackout fabric can provide complete darkness.

Lastly, our fabric ranges incorporate the latest in textile designs and technology.

AVANTI ROMAN BLIND SYSTEM

The Avanti Roman Blind System takes the Traditional Roman Blind System and adds a stylish Front Batten detail spaced the full drop of the blind, creating a more contemporary look. The front batten is available in a wide range of colours and is designed to coordinate with the base rail.
